

Inspiring Training for Better Business Cases

About Better Business Cases

Better Business Cases (BBC) is a systematic and objective approach to all stages of the business case development process. The Better Business Cases guidance is based on The Five Case Model shown below, a best practice approach to planning spending proposals and enabling effective business decisions. This provides a step by step guide to developing a business case, by establishing a clear case for change; setting clear objectives; considering a wide range of potential solutions; and putting the arrangements in place to successfully deliver the proposal.
