

## Inspiring MSP® Training

### About MSP

MSP is an acronym of *Managing Successful Programmes*. MSP provides a set of principles, governance themes and transformational flow processes for use when establishing and managing a programme. It is founded on best practice although it is not prescriptive. It is very flexible and designed to be adapted to meet the needs of local circumstances.

### About Inspiring Projects

Inspiring Projects, a division of Aspire Australasia Pty Ltd, has been recognised by APMG International as an Accredited Training Organisation, licensed to deliver training in MSP and other Best Management Practice products. We offer training throughout the Asia Pacific region. We have had over 10 years' experience in using MSP in real programmes, and bring this deep experience to our courses. We also contributed to the current version of the MSP manual.

### About our training

Our MSP training is designed to assist people and organisations to quickly develop the skills base and 'know-how' needed to effectively adopt and apply MSP. Our trainers and training materials are regarded as among the best available in Australasia. We incorporate the latest research in effective learning into our approaches. In support of the different ways people learn, our courses include a mixture of presentations, hands-on activities, discussions and review sessions. After their courses, our delegates are given access to the tools we have developed to increase the success of our clients' programmes. In addition to our accredited Foundation and Practitioner courses, we offer associated executive briefings and short courses, and workshops on specific skills needed in a MSP programme management environment.

### Additional support

We can deliver any of our courses in-house, and customise our courses to better suit your needs. We also provide ongoing coaching and mentoring support, as well as in-depth consulting and project start-up, review and rescue services.
